

Cannon Summer Camp will:

➤ Restrict families access to the building. Specifically, access will be limited to the Education entrance of the facility.

Call and we will bring your child down if you arrive before 6pm.

➤ Modify sign-in/sign-out procedures- we will note who we dismiss the child to.

Screen children and staff by:

➤ Making a visual inspection of the person for signs of infection such as flushed cheeks, fatigue, or extreme fussiness.

➤ Conducting temperature screening at arrival.

➤ Recording temperature and/or any symptoms on daily health screening.

Health will be repeated periodically throughout the day for staff and children to check for new symptoms developing-as needed.

Classrooms:

➤ Only allow children and staff who are required for daily operations and ratio inside the building and classrooms.

➤ Restrict teachers to one classroom with one group of children.

➤ Maintain no more than 25 persons, including children and staff members, within one contained classroom

➤ *If possible*, classrooms should include the same children in the group each day and the same childcare providers.

➤ Keep each group of children in a separate room.

➤ Stop daily group activities that may promote transmission-groups will not do REC or outside time together.

- We will plan more time outside so indoor classroom time is limited.
- Limit the mixing of children by staggering playground times and keeping groups separate for special activities such as art, music, and exercise.
- Refrain from sensory play such as rice, beans, sand, or playdough activities.
- As much as feasible (inside), all staff members and children will wear protective face masks.
- We will not require masks when they are outside. But they will still be required to play as safely as possible-not in each other's faces. Socially distant when possible.
- Routinely clean, sanitize, and disinfect surfaces and objects that are frequently touched. Remember items that might not ordinarily be cleaned daily such as doorknobs, light switches, countertops, chairs, cubbies, and playground structures. Use the cleaners typically used at your facility.
- Do not share toys with other groups
- Clean and sanitize all toys at the end of the day.

Handwashing

- Follow proper hand hygiene guidance for adults and children such as washing hands frequently with soap and water for at least 20 seconds (about as long as it takes to sing "Happy Birthday" twice). ***This will be done upon arrival each day.***

In addition to usual handwashing, make sure to wash hands:

- before and after eating meals and snacks
 - after blowing noses, coughing, or sneezing or when in contact with body fluids
 - after toileting
 - when coming in from outside
- Avoid touching eyes, nose, and mouth.

- Cover coughs and sneezes with a tissue or elbow.
- Hand sanitizing products with 60 percent alcohol may be used in lieu of handwashing when outdoors if hands are washed upon returning indoors.

Hand sanitizer must be stored out of reach of children when not in use. Cannot be used for eating, preparing, or serving food.

Children or staff who develop symptoms during the day

- If a child or staff member develops any symptoms of COVID-19, send them and family members home as soon as possible.
- While waiting for a sick child to be picked up, caregivers should stay with the child in a room isolated from others. If the child has symptoms of COVID-19, the caregiver should remain as far away as safely possible from the child (preferably, 6 feet) while maintaining visual supervision. Follow CDC Guidance for wearing cloth face covering.

Family Responsibilities

- Please keep your children home if there is any doubt of their health status.
- Every child should have a mask to wear each day.
- Please send a morning and afternoon snack with your child each day. We will NOT be providing snack at this time. Should be labeled for morning/afternoon and with your child's name.
- Each child should have a lunch for each day. Drink included.
- Each child should have a personal water bottle (labeled) to use while here. Water fountains will not be in service (except to refill water bottles).
- Be available to pick your child up in a timely manner (within 30 minutes) if you are called because your child is not feeling well. If your work is further away than 30 minutes, you need to have a backup pick-up person who is closer.
- Notify us as soon as possible if there is a possible exposure of Covid to your child or family.
